

supaproof®
 Impregnated proofed canvas
 Revolutionary DDP Proofing Process

supaproof® 12

supaproof® 12 is a medium weight (12oz basefabric, 15oz finished) two-fold warp and weft polyester/cotton.

It is a waterproof, general purpose, proofed canvas woven in Australia and impregnated utilising the DDP Proofing Process.

supaproof® 12 is ideally suitable for general applications including supported covers, awnings, annexe roofing and walls, trailer covers, campervan roofs and walls, stall covers, swags, hats, bags and tent walls and roofs, agriculture covers and ground sheets.

Key features

-  UV resistant
-  Water proof
-  Mildew resistant
-  Dimensionally stable (shrinkage resistance)
-  Wide colour range selected for the Australian and New Zealand market
-  FR Available selected colours only
-  DDP Proofing Process

Environmentally Friendly

Information

Weight Loomstate:	380gsm (12oz) +/- 30gsm
Proofed:	530gsm (15oz) +/- 30gsm
Width	205cm
Construction	52/48 poly/cotton plain weave
Roll Length	40 mts
Maximum Shrinkage	2.5% - warp
Breaking Force (AS 2001.2.3)	warp:2595 N weft:1874 N
Tear Resistance (AS 2001.2.10)	warp: 119 N weft: 69 N
Hydrostatic Head (AS 2001.2.17)	2396mm
Cone Test	0 ml (24 hours)
